## 1820 Era Hand Hewn

The 1820 Era Hand Hewn line of doors were crafted from lumber taken straight from the massive logs created by hand with an ax in the earliest pioneer days in Ohio. The outside of the original logs give these doors a unique look.

# 1860 Era Circular Sawn

The 1860 Era Circular Sawn line has sweeping patterns that showcase the character-filled circular lines of the saw. Smoother than the hand hewn, it has plenty of character in the lines, as every board is unique.
